

# EPXe

## Push Button Switch (With NVR)

The best compact integrated NVR (No Voltage Release) switch solution for small angle grinder with size limitation.

Highly reliability and durable, suitable for all angle grinders and other dusty environment, high current draw applications. Featuring patented non-teasible mechanism that enhance endurance and prevent teasing tackled.

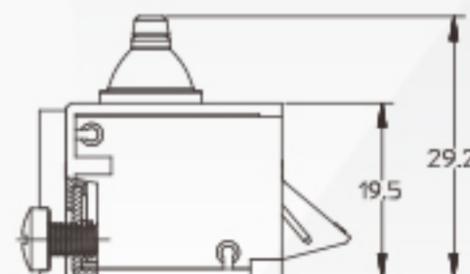

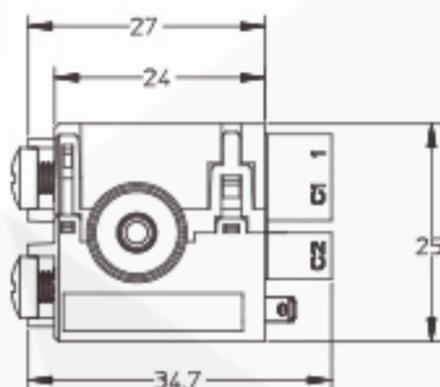

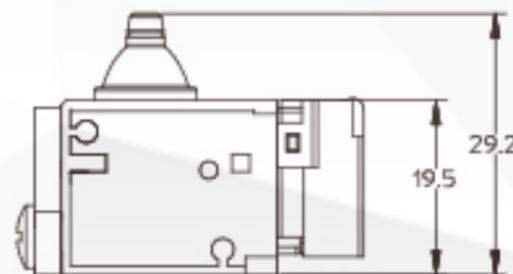

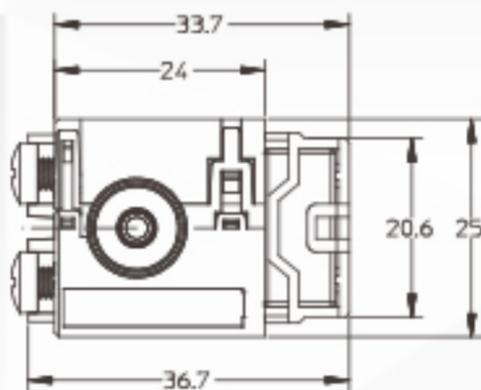

### -Features

- Built-in No Volt Release
- Patented snap on design anti-tease system
- Single pole single throw
- Restart protection on interrupted power supply
- Intergraded E-switch
- Soft start
- Overload protection
- Bistability
- Dust protected

### -Options

- Single poles version with or without integrated capacitor

Models	Configuration	Approvals
