

MGB

High Power Variable Speed Trigger Switch With Battery Protection Electronics

With UL Rated 16.1A 14.4V~28Vdc for application rating up to 45A, electronic bypass, cut off protection, extra heavy duty construction and optional external torque control input, MGB is the choice for top-on-the-line high end professional DC tools based on brushed motor.

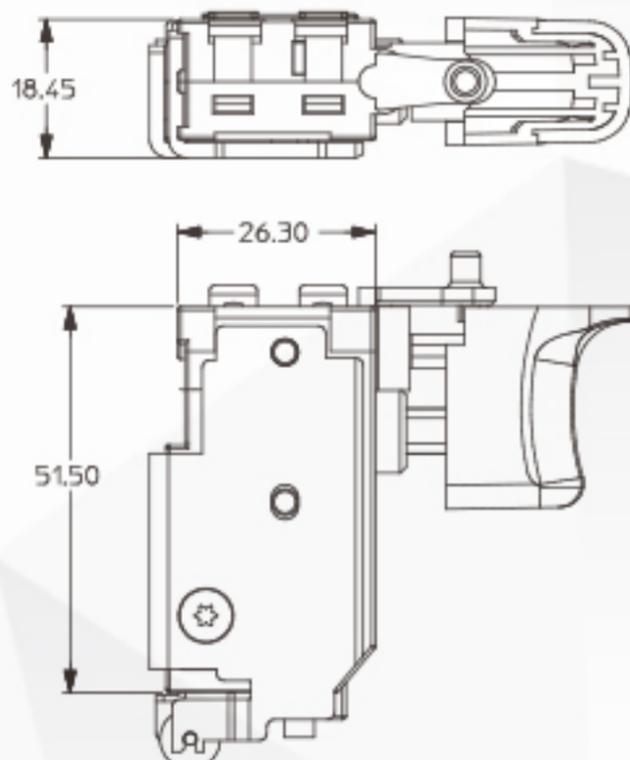

-Features

- Variable Speed Control (VSC)
- Electronic bypass
- Soft start
- Anti-Kick function
- Under voltage protection
- Overload protection
- Battery temperature protection
- MOSFET temperature protection

-Options

- Brake
- LED
- Fuel Gauge indication
- Torque selection
- Motion sensor detection

Model	Configuration	Approval
		
MGB	VSC switch	20RA 28Vdc Max, 5E4
